**ASSOCIATION OF DENTAL IMPLANT AUXILIARIES** is a component society of the International Congress of Oral Implantologists. As the number of dental implant practices in the world grows and develops, there is a need for auxiliaries to do the same. A goal of our association is to introduce education related to implants into your practice or increase your implant practice as a "team." The main purpose of the ADIA is to develop educational criteria and training for certification and to provide an organized vehicle for auxiliaries to contribute to the field of oral implantology/implant dentistry.
