August 21-23, 2014

ICOI SUMMER IMPLANT PROSTHETIC SYMPOSIUM

Hyatt Regency McCormick Place Hotel and Convention Center

Gold Sponsor:

Silver Sponsors:

MISSION STATEMENT

This ICOI Symposium is aimed at giving attendees a balanced view of the scientific basis of implant failures. Patient selection and treatment planning will be examined as necessary pre-cursors to long term implant success. Surgical, laboratory and prosthetic considerations will be presented to aid the clinician in understanding the key components to designing and executing successful implant cases. Miscalculations and challenges that occur in cases will be presented. The symposium will review and explain the evaluation and treatments necessary to address complications and failures.

OBJECTIVES

Upon completion of this symposium attendees will:

- Learn to properly assess patients and understand the essential components for thorough implant examinations
- Compare the clinical survival rates of multiple implant treatment modalities
- Review treatment solutions for surgical and prosthetic implant complications
- Learn how important the treatment planning phase is to avoid problems
- Review etiologies of peri-implant disease and treatment strategies for infectious dental implant complications
- Understand the various systemic medical conditions and contraindications that influence implant success

Dear Colleague,

We invite you to join us as the ICOI returns to Chicago for an unforgettable educational event!

Our meeting will kick off Thursday morning with six pre-symposium half-day lectures and hands-on workshops. The 2 ½ day symposium features 20 hours of scientific sessions focused on **Implant Failures**. Our world class faculty is comprised of academicians, generalists, laboratory technicians and specialists from around the globe to offer you the latest science, technology and research for immediate incorporation into your practice. Bring your staff and we can help “train your team” during our economical multi-day auxiliary program complete with hands-on workshops and certification.

Our meeting will be held at the Hyatt Regency McCormick Place Hotel and Convention Center in fabulous downtown Chicago. With its unparalleled sophistication, class, and style, not to mention, breathtaking views, Chicago offers our attendees incredible shopping, world-renowned museums, nightlife and music of every style, theater that’s home to world-premiere shows, and a dining scene that has so many accolades it’s in a class of its own. This high-energy city promises an exciting venue rich in entertainment, arts and culture with something for everyone.

We look forward to seeing you in Chicago!

Warmest regards,

Dr. Jon Suzuki, Program Chairman

MAIN PODIUM FACULTY

Dr. Robert Blackwell

Clinical Associate Professor, Chairman, Department of Graduate Education and Director of Implant Dentistry, Southern Illinois University School of Dental Medicine, private practice, Decatur, IL

Dr. Lyndon Cooper

Prosthodontist, Professor of Dentistry, Department of Prosthodontics, University of North Carolina, Chapel Hill, NC

Mr. Lee Culp, CDT

Certified Dental Technician, Morrisville, NC

Dr. Frank DeLuca

Faculty of the General Practice Residency Program at Larkin Hospital in Miami, Attorney and General Practitioner, Hollywood, FL

Dr. Charles Goodacre

Prosthodontist, private practice, Redlands, CA

Dr. Kenneth Hebel

Prosthodontist, private practice, Scottsdale, AZ

Dr. Les Kalman

Chief of Dentistry at Strathroy-Middlesex General Hospital, General Practitioner, private practice, Komoka, Ontario

Dr. Kent Knoernschild

Prosthodontist, Professor University of Illinois at Chicago

Dr. Aldo Leopardi

Prosthodontist, private practice, Greenwood Village, CO

Dr. Craig Misch

Oral & Maxillofacial Surgeon, private practice, Sarasota, FL

Dr. Ricardo Mitrani

Prosthodontist, private practice with academic affiliations at the University of Washington and UNAM (National University of Mexico), Mexico City, Mexico

Dr. Justin Moody

General Practitioner, private practice, Rapid City, SD

Dr. Ady Palti

General Practitioner, private practice, Baden-Baden, Germany

Dr. Yvan Poitras

General Practitioner, private practice, Montmagny, Quebec

Dr. Thomas Rams

Board Certified Periodontist, Diplomate of the ICOI, Professor at Temple University in the Department of LaFayette Hill, PA

Dr. Randolph Resnik

Prosthodontist, Professor, Temple University, private practice, Pittsburg, PA

Dr. Paul Rosen

Clinical Associate Professor of Periodontics at the University of Maryland Dental School, Periodontist, private practice, Yardley, PA

Dr. Guido Sarnachiaro

Assistant Clinical Professor at Columbia University College of Dental Medicine's Department of Prosthodontics, and at the Temple University School of Dentistry's Department of Periodontology- Oral Implantology, New York, NY

Dr. Eddie Scher

Director of the Osseo-integrated Year Course, Editor in Chief of Implant Dentistry Today, Visiting Clinical Professor at Prosthodontic and Implant Department of Temple University, London, UK

Dr. Jon Suzuki

Periodontist, Professor and Program Director, Temple University, Philadelphia, PA

Dr. Ray Yukna

Professor of Advanced Periodontal Therapies at the University of Colorado, Diplomate of the American Board of Periodontology, Aurora, CO

PRE-SYMPOSIUM COURSES

8:00 am to 12:00 pm
Fee: **Gratis** AGD Code: 690
Attendance is **Limited**

Sponsored by:

DR. MICHAEL D. SCHERER

How to Make Treating Denture Patients Fun Again While Adding Revenue to Your Practice with Narrow Diameter Overdenture Implants

Participants will attend a 4 hour course which encompasses an evidence based lecture presenting background, theory, treatment planning, surgical and prosthetic procedures, and marketing of narrow- diameter overdenture implants. Emphasis will be placed on managing difficult denture patients and using minimally invasive surgical techniques to convert dentures to overdentures. Patient surgical demonstration videos will be presented and reviewed allowing attendees to observe patient surgical and prosthetic procedures. In addition, a review of cone-beam CT radiography and the use of computerized surgical guides for narrow-diameter overdenture implants will be incorporated into the presentation.

COURSE OBJECTIVES

- Learn to effectively treatment plan narrow diameter implants for overdenture therapy
- Understand patient perceptions of dentures and address methods to manage denture patients
- Understand surgical procedures related to proper implant placement for narrow diameter implants
- Acquire knowledge and confidence in utilizing narrow diameter implants and surgical kits
- Learn how to effectively convert dentures to implant overdentures and manage complications
- Exposure to utilizing CBCT digital software for treatment planning narrow diameter overdenture implants

Sponsored by:

8:00 am to 12:00 pm
Fee: **Gratis** AGD Code: 692
Attendance is **Limited**

DRS. BARRY GOLDENBERG AND GEORGIOS ROMANOS

Immediate Loading in Implant Dentistry: From the Biology to the Clinical of Basic and Advanced Situations

Immediate loading has been accepted as an evidence-based concept especially in the anterior part of the mandible and in areas with special anatomical and clinical requirements. This presentation will focus on the biology and especially on the criteria for success using immediate functional concepts of implants placed in poor bone qualities and compromised bone metabolism. The main characteristics of the implant design, implant/abutment connection, as well as considerations for a successful treatment will be presented. Long-term data using various concepts of perio-prosthetic treatment according to the histological evaluation demonstrate the evidence of such treatment protocols also in advanced clinical scenarios.

COURSE OBJECTIVES

- Understand the criteria for success using immediate functional concepts of implants placed in poor bone qualities and compromised bone metabolism
- Review considerations for successful implant treatment
- Review the long-term data using various concepts of perio-prosthetic treatment

8:00 am to 12:00 pm

Course Fee: \$295 AGD Code: 691

Hands-On Workshop, Attendance is Limited

DR. JIN Y. KIM

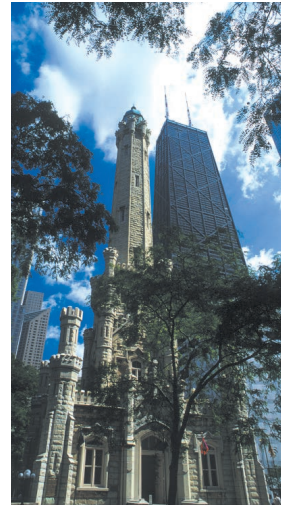

Practical Soft Tissue Handling Techniques in Implant Dentistry

Soft tissue around dental implants is essential in sculpting the ideal cosmetic appearance of the implant restoration. However, soft tissue plays a much more important functional role than the mere appearance - it is critical for the long term maintenance, as a reservoir of blood supply and a bed for the immune system, as well as providing specialized characteristics such as keratinized mucosa. This hands-on practical session will be focused on understanding the contemporary methods of creating and maintaining soft tissue form and volume. Didactic review of surgical and restorative techniques will be presented together with a hands-on workshop using pig jaws and other models. The current status of autologous biological enhancers including platelet-rich fibrin (PRF), concentrated growth factors (CGF), as well as enamel matrix derivative, and a number of soft tissue allografts and xenografts will be discussed. Innovative surgical techniques, use of gadgets, suturing techniques, and the role of implant design will also be covered.

COURSE OBJECTIVES

- Understand the role of soft tissue in teeth and around dental implants and soft tissue graft biology and healing
- Understand indications for epithelial graft and sub-epithelial connective tissue graft and fundamentals of successful allogeneic tissue usage
- Learn platelet-rich fibrin (PRF) indications, preparation and use rationale and use of enamel matrix derivative
- Learn soft tissue enhancement with socket grafting, simplified flap designs and suturing techniques, soft tissue grafting and site modification at the time of implant placement, uncover or provisionalization
- Review the decision trees for material and technique selection
- Understand pre/post-surgical considerations and complications

Attendance is Limited

DR. JUSTIN MOODY

TeethXpress: Immediate Load Treatment Solution for the Fully Edentulous Arch

As demand for immediate load full arch treatment continues to grow, so have patient expectations. Immediate load therapy for the edentulous arch can provide a tremendous level of patient satisfaction and still be an affordable option for patients. This lecture will focus on the TeethXpress protocol for treatment planning immediate load cases and include the science and rationale behind this approach. Topics covered in this presentation will include surgical protocol, chairside denture conversion, and various options for the final prosthesis. Case acceptance, marketing and business practices will also be discussed. A brief hands-on exercise will be included.

PRE-SYMPOSIUM COURSES

8:00 am to 12:00 pm

Fee: **Gratis**

AGD Code: 555

DR. BORIS PULEC

Standard of Care in Dental Implant Treatment Planning, Record Keeping, and Informed Consent

Proper record keeping and informed consent are critical elements of any dental implant treatment. In today's litigious environment and strict regulatory (domestic and international) guidelines, not following and especially recording mandated treatment steps can have serious consequences. Implant dentistry involves high cost and high medical risks making it a perfect target for litigious patients and lawyers when things may not go perfectly.

A dentist's best defense in any complaint are comprehensive detailed records. The dental implant provider (both surgical and prosthetic) must follow specific protocols that meet the requirements of informed consent by the patient. In addition records must show that the provider planned, followed and especially recorded all steps involved in providing treatment that meets the standard of care.

This presentation will first show the attendees a step by step method of how to present a dental implant treatment plan that will increase case acceptance and provide proper informed consent. Then it will show how to comprehensively plan and record a dental implant treatment plan. Finally, it will show how to document the treatment itself to meet the standard of care.

COURSE OBJECTIVES

- Understand record keeping and informed consent in implant dentistry
- Review treatment planning and case acceptance
- Learn comprehensive planning, recording and documentation

8:00 am to 12:00 pm

Fee: \$225

AGD Code: 691

Hands-On Workshop

Attendance is Limited

Sponsored by:

DR. JOHN RUSSO

Socket Grafting for Implant Placement

The success of a dental implant depends largely on the quality and quantity of bone at the time of placement. Grafting a socket at the time of extraction can facilitate the implant placement and in many situations save time and money for the patient by eliminating more involved grafts at a later date. This lecture will review a classification of sockets with a decision tree of techniques to graft based on the anatomy of the remaining socket. Consideration will also be taken to preserve and create an adequate zone of keratinized tissue. This course will include a hands-on portion in the order the practice techniques are discussed.

COURSE OBJECTIVES

- Understand the ideal quality and quantity of bone necessary for long term implant success
- Understand socket grafting techniques and materials available to predictably grow bone
- Gain hands-on experience of socket grafting techniques
- Know when to do immediate placement, flap, when to use fast resorbing collagen or slow resorbing membrane, what to do if the entire buccal plate is missing (wide vs narrow), how long to wait before placing an implant

SCIENTIFIC PROGRAM

THURSDAY, AUGUST 21, 2014 ■ AFTERNOON SESSION

Session Host: Dr. Randolph Resnik

- 12:45 pm to 1:00 pm **OPENING COMMENTS**
Drs. Kenneth Judy and Jon Suzuki
- 1:00 pm to 2:00 pm **Dr. Randolph Resnik**
Solutions to Malpositioned Implants and Migrating Implants
- 2:00 pm to 3:00 pm **Dr. Aldo Leopardi**
Prosthetic Management of the Failed Implant Site: How to Develop Soft Tissue Profiles and When to Use Prosthetic Equivalents
- 3:00 pm to 3:45 pm **BREAK WITH EXHIBITORS**
- 3:45 pm to 4:45 pm **Dr. Charles Goodacre**
Determining When to Extract a Tooth and Place an Implant OR Retain a Tooth Through Root Canal Treatment / Periodontal Treatment OR Place a Conventional Fixed Partial Denture
- 4:45 pm to 5:45 pm **Dr. Justin Moody**
Avoiding Implant Complications with the Use of 3D Imaging
- 6:00 pm to 7:30 pm **TABLETOP & POSTER PRESENTATIONS / WELCOME RECEPTION**

FRIDAY, AUGUST 22, 2014 ■ MORNING SESSION

Session Host: Dr. Edwin Scher

- 8:00 am to 9:00 am **Mr. Lee Culp:** ZEN: Zirconia Esthetics Naturally
- 9:00 am to 10:00 am **Dr. Kenneth Hebel:** Implant Treatment Planning - Chaos or Clarity?
- 10:00 am to 10:30 am **BREAK WITH EXHIBITORS**
- 10:30 am to 11:30 am **Dr. Ricardo Mitrani:** Redesigning the Poorly Planned Implant Supported Reconstruction
- 11:30 am to 12:30 pm **Dr. Ady Palti:** Surgical and Prosthetic Complications in Oral Implantology - How We Can Avoid and/or Solve Them

FRIDAY, AUGUST 22, 2014 ■ AFTERNOON SESSION

Session Host: Dr. Jon Suzuki

- 12:30 pm to 1:30 pm **LUNCH WITH EXHIBITORS**
- 1:30 pm to 2:30 pm **Drs. Paul Rosen and Jon Suzuki:** The Treatment of Peri-implant Diseases: Advisability and Predictability
- 2:30 pm to 3:30 pm **Dr. Kent Knoernschild:** Reducing Complications from Occlusion
- 3:30 pm to 4:15 pm **BREAK WITH EXHIBITORS**
- 4:15 pm to 5:15 pm **Dr. Yvan Poitras:** Predictable Destruction of Osteointegrated Implants with the Prosthesis
- 5:15 pm to 6:15 pm **Dr. Lyndon Cooper:** Data: A Powerful Tool for Optimal Implant Esthetics
- 7:00 pm to 8:00 pm **AWARDS CEREMONY**

SCIENTIFIC PROGRAM

SATURDAY, AUGUST 23, 2014 ■ MORNING SESSION

Session Host: Dr. Kenneth Judy

- 8:00 am to 9:00 am **Dr. Edwin Scher:** What Went Wrong (with Your Single Tooth Implant) Complications, Errors, and Problem Solving
- 9:00 am to 10:00 am **Dr. Les Kalman:** Prevention and Management of Compromised Results
- 10:00 am to 10:30 am **BREAK WITH EXHIBITORS**
- 10:30 am to 11:30 am **Dr. Ray Yukna:** Saving Failing Implants with Nd:YAG Laser
- 11:30 am to 12:30 pm **Dr. Robert Blackwell:** How to Avoid and Treat Prosthetic Implant Complications

SATURDAY, AUGUST 23, 2014 ■ AFTERNOON SESSION

Session Host: Dr. Avi Schetritt

12:30 pm to 1:30 pm

LUNCH WITH EXHIBITORS

1:30 pm to 2:30 pm

Dr. Craig Misch

Vertical Bone Augmentation to Repair Failed Implant Sites

2:30 pm to 3:30 pm

Dr. Thomas Rams

Infectious Dental Implant Complications

3:30 pm to 4:15 pm

BREAK WITH EXHIBITORS

4:15 pm to 5:15 pm

Dr. Frank DeLuca

Implant Complications: A Legal Primer

5:15 pm to 6:15 pm

Dr. Guido Sarnachiaro

How to Avoid Esthetic Failures in the Management of Extraction Sockets and Immediate Implant Placement

AUXILIARY PROGRAM

MISSION STATEMENT

This ADIA Symposium is designed to enhance the role of each auxiliary on the implant team. The program will highlight strategies for success while focusing on increasing the understanding of the auxiliaries' responsibilities during implant treatment. A major goal is to evaluate the interaction of implant patients and team members and review methods the team can apply to help guide patients through implant therapy and its various components to help create an efficient and effective implant team. The certification programs will present the newest technology and research related to implant dentistry.

OBJECTIVES

At the completion of the two and a half day auxiliary session, attendees will:

- Understand the restorative implications for an implant guarantee, warranty or policy
- Learn what's new in CDT 2014 and preview CDT 2015
- Understand how guided bone regeneration can be used in implant site development
- Learn how to manage age-related disorders and physiological changes associated with periodontal disease
- Develop a knowledge base related to treatment planning implant cases
- Understand best practices for implant procedures

AUXILIARY SPEAKERS

Ann-Marie DePalma
Stoneham, MA

Patti DiGangi
Addison, IL

Teresa Duncan
Centerville, VA

Carla Frey
Corona, CA

Dr. Avi Schetritt
Miami, FL

Yva Khalil
St. Hubert, Quebec

Michelle Kratt
Douglas, MA

Dr. Ira Langstein
Rye Brook, NY

Dr. A. Burton Melton
Albuquerque, NM

Dr. Jeffrey Melton
Santa Fe, NM

Deborah Miller
Santa Fe, NM

AUXILIARY PROGRAM

THURSDAY, AUGUST 21, 2014

- 12:45 pm to 1:00 pm **Introductions**
- 1:00 pm to 2:00 pm **Patti DiGangi:** Riding the Wave of the Silver Tsunami: Guidebook to Treating Baby Boomers
- 2:00 pm to 3:00 pm **Deborah Miller:** Should We Offer a Guarantee with Our Implants?
- 3:00 pm to 3:45 pm **BREAK**
- 3:45 pm to 5:45 pm **ADIA Hands-On Workshops:** The ADIA Hands-On Workshops will offer a variety of small group interactions related to: Hygiene Instrumentation, Patient Home Care, Case Acceptance, Insurance for Implants, Social Media & Marketing, Surgical Set-Up, Laboratory Considerations, Implant Parts and Pieces, Practice Software and More

FRIDAY, AUGUST 22, 2014

- 8:00 am to 9:00 am **Patti DiGangi:** The DiGangi Code: Fact or Fiction for Clinicians
- 9:00 am to 10:00 am **Dr. Ira Langstein:** Dental Technology 2014: What Should We Rely On and What Do We Need?
- 10:00 am to 10:30 am **BREAK**
- 10:30 am to 11:30 am **Dr. Avi Schetritt:** Guided Bone Regeneration for Ideal Implant Site Development
- 11:30 am to 12:30 pm **Dr. A. Burton Melton:** Prosthodontic and Surgical Techniques for Auxiliaries and Doctors
- 12:30 pm to 1:30 pm **LUNCH**
- 1:30 pm to 3:30 pm **ADIA Hands-On Workshops:** The ADIA Hands-On Workshops will offer a variety of small group interactions related to: Hygiene Instrumentation, Patient Home Care, Case Acceptance, Insurance for Implants, Social Media & Marketing, Surgical Set-Up, Laboratory Considerations, Implant Parts and Pieces, Practice Software and More
- 3:30 pm to 4:15 pm **BREAK**
- 4:15 pm to 5:15 pm **Dr. Jeffrey Melton:** Peri-implant Soft Tissue Management: Surgical and Restorative Considerations to Influence Long Term Esthetic and Peri-implant Health
- 5:15 pm to 6:15 pm **Yva Khalil:** Post-Operative Implant Care

SATURDAY, AUGUST 23, 2014

Please Choose One Program. Programs are conducted simultaneously in 4 different rooms

8:00 am to 6:00 pm

Dental Hygiene Implant Certification Program (DHICP)

Ann-Marie DePalma

Rationale for Dental Implants; Classification and Definitions of Dental Implants; Contraindications; Implant/tissue interfaces; Assessment, Diagnosis, and Treatment Planning; Implant Surgical & Prosthodontic Procedures; Maintenance and Evaluation Procedures; Management of Implant Complications and Failures

8:00 am to 6:00 pm

Dental Assisting Implant Certification Program (DAICP)

Carla Frey

Classification and Definitions of Dental Implants; Indications & Contraindications; Biomechanics & Biomaterials; Client Evaluation, Assessment and Selection; Treatment Planning, Site Selection, and Implant Selection; Implant Complications and Failures; Surgical Templates & Stents; Pharmacology & Sedation; Surgical Preparation and Infection Control; Surgical Procedures; Sinus Lifts, Bone Grafts, Tissue Regeneration; Prosthetic Procedures; Provisional Prosthesis & Fabrication of Temporaries; Impressions; Laboratory Considerations

8:00 am to 6:00 pm

Practice Management Implant Certification Program (PMICP)

Teresa Duncan

Terminology and Definitions; Case Presentation & Handling Objections; Commonly Asked Questions and Appropriate Responses; Fee Presentation; Financial Options and Arrangements; Risk Management, Documentation and Record Keeping; Practice Plans and Marketing; Referrals; Intra/Inter-Office Communications

8:00 am to 6:00 pm

Implant Coordinator Training Program

Michelle Kratt

Attracting New Patients; Marketing; Office Brochures; Customized Informational Packets; Pre-Treatment Planning; Presenting Fees; Payment Options; Documentation; Record Keeping & Consent Forms; Appointment Scheduling; Inventory Control; Inter/Intra Office Communications; Laboratory Communications

10:00 am to 10:30 am

Break

12:45 pm to 1:45 pm

Lunch

3:30 pm to 4:00 pm

Break

The 2 ½ day program is applicable for 20 CEUs.

A major goal of the ADIA educational programs is to help create well-rounded, cross trained auxiliaries. There is value in having a team that is trained in ALL aspects of implant dentistry, as well as, the personal value the auxiliary will possess. We hope that all team members will aspire to achieve Fellowship in the ADIA and one means of attaining this goal is to be sure to attend each of the certification programs regardless of your given position in the practice. We respect the individual needs of our attendees and encourage them to review the doctors' main podium topics for areas of advanced needs and interests with attendance at no cost. For more information please go to www.adiaonline.org.

The ADIA has gone "Green" and we will no longer provide printed handouts for participants at meetings. ADIA pre-registered participants will receive an email with a password to access the ADIA website in order to print the handouts themselves. Handouts will be available on the website 2 weeks prior to each meeting and for 3 weeks after. It is important that all ADIA registrants provide their email address to the main ICOI office at icoi@dentalimplants.com. For onsite registrants, the ADIA web address and password will be provided in the registration packet. In this way, on site registrants can print the handouts at their hotel or wait until after the meeting.

GENERAL INFORMATION

HOTEL INFORMATION

The site for ICOI's Summer Implant Prosthetic Symposium will be the newly renovated Hyatt Regency McCormick Place. Delegates returning to Chicago will take in incredible views of downtown Chicago and Lake Michigan while enjoying their stay at the Hyatt's 4th largest hotel in the world. Conveniently located near Soldier Field, the hotel is connected to North America's largest convention center, McCormick Place, via an enclosed sky bridge.

Please make your reservations EARLY by calling the hotel directly at (312) 567-1234 or toll free at 1-888-233-1234. The discounted rate for single/double occupancy is \$183. You can also visit our website at www.icoi.org where reservations can be made online. **Reservations must be made by August 6, 2014 to receive the discounted rate.**

DIPLOMATE / MASTERSHIP / FELLOWSHIP AWARDS RECEPTION

Friday, August 22, 2014 ■ 7:00 pm - 8:00 pm

The Advanced Credentials' Awards ceremony will be held at the Hyatt Regency McCormick Place. Please plan to attend this reception which celebrates our newest class of ICOI Diplomates, Masters and Fellows. Attendance at this social event has grown tremendously, as our members have achieved their advanced credentials. It provides an opportunity for family, staff and other ICOI members to celebrate as we toast our newest credentialed members. The cost for this reception is \$25 per person. Please indicate on the registration form the number of guests in your party. **Those receiving credentials and one guest are gratis.** Dress is business attire.

.....

ACCOMPANYING PERSONS

If you are planning to bring a spouse or companion, please complete the appropriate section of the registration form. A modest fee of \$125 will provide your spouse or companion with the following:

- Admission to the Welcome Reception on Thursday evening
- Luncheons with the delegates on Friday and Saturday in the exhibit hall
- Morning and afternoon coffee breaks with the delegates in the exhibit hall
- Admission to the Exhibit hall during show time hours

Does not include admission to the General Session or Auxiliary Programs.

WELCOME RECEPTION

Thursday, August 21, 2014 ■ 6:00 pm - 7:30 pm

Our Welcome Reception in the Exhibition Hall follows the afternoon session of the Symposium and allows for delegates to relax with drinks and hors d'oeuvres, commiserate with colleagues, take advantage of product discounts being offered at the meeting by our exhibitors and to experience and discuss presentations made by our Tabletop and Poster participants. This aspect of the Welcome Reception continues to be a favorite amongst our attendees.

.....

TABLETOP AND POSTER PRESENTATIONS

Thursday, August 21, 2014 ■ 6:00 pm - 7:30 pm

You don't have to be a Main Podium speaker to participate in our Summer Implant Prosthetic Symposium. Why not plan to present a Tabletop and/or Poster presentation? A "proven training ground" for future and current Main Podium speakers, the very popular Tabletop and Poster competition will be held in tandem with our Welcome Reception in the Exhibition Hall on Thursday from 6:00 to 7:30 pm. It allows for presenters to interact with colleagues in a social, yet instructive manner. Tabletop and Poster presentations should display a challenging case in a limited time format, i.e. 5-7 minutes, so that the case can be repeated as new observers gather. Poster presentations will be placed (tacked or taped) on boards at the beginning of the symposium and will remain on display throughout the Symposium. Poster presenters should be at their posters to answer inquiries during the Welcome Reception. All presentations will be judged, with the winners receiving awards and main podium consideration for future ICOI meetings.

REMEMBER, ALL FELLOWS, MASTERS AND DIPLOMATES WHO CONDUCT TABLETOP OR POSTER PRESENTATIONS HELP FULFILL THEIR FIVE-YEAR MAINTENANCE REQUIREMENTS.

*Parties interested in conducting a Tabletop and/or Poster presentation must contact the Chair for this competition, Dr. Avi Schetritt, to request an application. **Requests must be submitted by July 7, 2014 for consideration.***

Dr. Avi Schetritt – Email: dravi@perio.org

ACCREDITATION

ADA CERP® Continuing Education Recognition Program

ICOI is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

ICOI is designated as an Approved PACE Program Provider by the Academy of General Dentistry.

The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement. The current term of approval extends from April 1, 2014 to March 31, 2018. Provider ID# 217378.

ICOI designates the Scientific Program for 20 continuing education credits.

All Scientific Session presentations are lecture format.

The Scientific Session presentations qualify for AGD Subject Code 690 Implants.
