INTERNATIONAL CONGRESS OF ORAL IMPLANTOLOGISTS

FEBRUARY 2017

ICOI CONTINUES ASIAN PIVOT SINGAPORE CONGRESS SUCCESS

ICOI's commitment to our Asian colleagues begins to ramp up with a signature Singapore Congress. After the October congress, we attended the New Delhi WCOI Congress in November. In 2017, we will visit China and support the Tokyo Congress next summer.

Dr. Ady Palti, President ICOI Europe with colleagues in Singapore.

The Welcome Reception on Thursday, October 27, 2016 was the setting for the popular Tabletop & Poster Competition presented by the following delegates: Dr. Nur Affendi et al. (New York, USA) POSTER: A Surgical Technique to Enhance Coronal Contour of Alveolar Ridge; Dr. Min-Ki Bang (Busan, Korea) POSTER: A Case Report of Full Mouth Rehabilitation Using Digital Dentistry; Dr. Liang-Wei Chen (Taichung, Taiwan) POSTER: d-PTFE Membrane Application Case Reports; Dr. Hazlina Ghani et al. (New York, USA) POSTER: 3D and 2D Technology for Maxillary Sinus Augmentation Simulation; Dr. Lincoln Harris (Bargara, Australia) Let Nature Provide: Socket Shields and Ortho Extrusion; Drs. Koji Ikeda, Wataru Hatakeyama, Hisatomo Kondo (Morioka, Japan) POSTER: Bone Regeneration Using Pressed

Nano-apatite/collagen Composites in Rat Cranial Bone Defects; Dr. Chaitanya Joshi (Nashik, India) POSTER: Don't Waste When it is Best: Extracted Teeth as an Allograft; Dr. Wahjat Khan (Toronto, Canada) POSTER: Strategic Tool Esthetic Planning in Implant Dentistry; Dr. Hyun-Min Kim (Incheon, Republic of Korea) POSTER: Displacement of Dental Implants into the Focal Osteoporotic Bone Marrow Defect; Dr. Miyako Morita (Kitakyushu, Japan) POSTER: A Mathematical Method for Predictable Tissue Position with Implant Abutment; Dr. Wei Ming Huang (Kaohsiung, Taiwan)

On Friday, October 28, 2016, the ICOI Autumn Congress at the Raffles City Convention Centre in Singapore with delegates from over 30 countries began with Dr. Andrea Agnini, “The Role of New Technology in Everyday Patient’s Care”, Dr. Howard Gluckman, “Partial Extraction Therapies, Techniques to Prevent Ridge Collapse”, Dr. Hyunjong Kim “Clinical Availability for Implant Surgery Using Dental Fluoroscope” and finishing up the morning session was Dr. Loke Weiqiang “Incorporating Digital Solutions for Implant-Based Reconstructions: Understanding the Advantages and Limitations”. After lunch the lectures continued with Dr. Thomas Giblin “Incorporating Digital Dentistry into the Modern Implant Practice” and Prof. Dong-Seok Sohn “Simplified Ridge and Sinus Augmentation using Piezoelectric Bone Surgery and Sticky Bone in Implant Dentistry”. Dr. Gerard Scortecchi started things off on Saturday morning with his lecture “How Far Can We Go Today with Digital Oral Implantology?”, followed by Dr. Lawrence Lau “Guided Implantology Using CEREC/CBCT Integration”, Dr. Konstantinos Valavanis “The Marginal Migration Concept: A Surgical-Prosthetic Approach to Enhance the Perimplant Tissues” and Dr. Teruaki Homma “Future Implant Prosthetic Protocol- Using Intra Oral Scan for Implant Restoration” finished out the morning. The afternoon session began with Dr. Henry Ho “Tissue Stability - A Balance of Biology and Technology”, Dr. Ady Palti “Narrow Ridge Implant Solutions: The Ultimate Concept”, Mr. Livio Yoshinaga “Digital Workflow in Dentistry – DSD and SKYN Concept – Designing and Delivering High End Aesthetic Restorations” and Dr. Wendy Wang finished out the day with her lecture “Safety Zone Revisited - A Paradigm Shift in Treatment Planning”.

Substantial participation came from Australia, Japan, Malaysia, Singapore, Korea, Taiwan and Thailand.

The delegates were extremely pleased with the program designed by Dr. Ady Palti from Baden Baden, Germany, President of ICOI Europe.

The Misch Legacy Endowment

ANNOUNCING THE MISCH LEGACY ENDOWMENT

The Misch Legacy Endowment, a \$1 million campaign to advance oral health care worldwide, has been established in recognition of the lifetime achievements of Dr. Carl E. Misch. Dr. Misch is an internationally acclaimed educator and clinician in oral implantology. The Misch Legacy Endowment (MLE) will carry on the Misch legacy of service to the dental profession and the public.

The lives of innumerable dentists and patients have been enhanced as a result of Dr. Misch's career as a leader, innovator and author. Determination, together with vision and skill, allowed him to overcome professional and technical barriers to bring implant dentistry into the mainstream of contemporary dental practice. For this, he was awarded the *American Dental Association's Distinguished Service Award*, the highest honor of the world's largest dental association.

Join Us

You are urged to join this effort and help us to carry on the Misch legacy with your donation to the Misch Legacy Endowment, a collaboration between the International Congress of Oral Implantology (ICOI) and the International College of Dentists (ICD). The ICD Global Visionary Fund, a tax qualified US government 501c3 public charity, will manage MLE donations and grants. Early donations of \$207,000 have been received, but we have a long way to go. Your donation will support humanitarian care programs, dental education and outreach initiatives in underserved populations for many years to come.

"A Perfect Fit"

During ceremonies to launch the Misch Legacy fund in Miami, on Feb. 13, 2016, Dr. Misch, Co-chairman of ICOI and an honored Fellow of the ICD, expressed these sentiments, *"I am honored that this campaign will go forward in my name. The combination of ICOI and ICD is a perfect fit. I urge all of you to support this campaign, and I thank you very much."*

Please send your donation to:

The ICD Office G3535 Beecher Road, Suite G, Flint, Michigan 48532-2700;

27th Annual NYU/ICOI Implant Symposium

On Saturday, November 5, 2016, a joint implant symposium was presented at NYU with the ICOI as its partner. The sponsors were the Ashman Department of Periodontology and Implant Dentistry and the ICOI. The program and speakers were introduced by Dr. Peter M. Loomer and Dr. Kenneth W.M. Judy.

The speakers were Dr. Stephen Chu, “Maximizing the Aesthetic Result: The Scope of the Problem”; Dr. Ady Palti, “Full Arch Aesthetics in the Daily Practice: A Step-by-Step Approach to Achieving Long-Term Success”; Dr. Joseph Kan, “Inter-Implant Papilla Management in the Esthetic Zone”; Dr. Guido Sarnachiaro, “Managing Implants Placed into Postextraction Sockets with Dentoalveolar Defects”; Dr. Homa Zadeh, “Immediate versus Delayed Implant Placement: Biological, Surgical and Practical Considerations”; Dr. Fabio Scutella, “Influence of the Restorative Abutment Morphology Over the Peri-Implant Soft Tissue”; and Dr. Richard Kraut, “Bone Morphogenic Protein Grafts as a Basics for Implant Solutions”.

Over 250 delegates participated from over 20 countries, filling the Septodont Lecture Hall.

As usual, an ICOI Awards Ceremony for Advanced Credentials followed the scientific program. 16 Diplomates were presented, 2 Masterships were presented, and 53 Fellowships were awarded.

RECEIVING THEIR FELLOWSHIP CERTIFICATES WERE THE FOLLOWING:

Dr. Alaa AlQutub – Boston, MA

The delegates were generous in the praise for a spectacular program, as well as an efficient presentation of awards. Dr. Sang-Choon Cho and Dr. Kenneth Judy worked so as not to delay delegates late on a Saturday evening. Dr. Judy thanked Drs. Cho, Loomer and Mr. Kendall Beacham for their enthusiastic support and participation. Next year we will meet again on November 11, 2017.

Dr. Takanori Suzuki acted as our “official” photographer. We express our gratitude to him as all photographs are presented here in this newsletter.

7th Annual Columbia University/ICOI Dental Implant Symposium

On Saturday December 10, 2016 the Annual ICOI/CDM program took place at The Columbia University Medical Center in New York. “Practical Techniques and Emerging Trends in Implantology” was designed and moderated by Dr. Dennis Tarnow. Over 350 people attended and two auditoriums had to be used. Opening comments were made by Dr. Kenneth Judy, Dr. Dennis Tarnow and Dr. Christian Stohler.

Eight speakers presented their material. **Dr. Gary Greenstein:** Utilization of d-PTFE Barriers for Post-Extraction Bone Regeneration in Preparation for Dental Implants; **Dr. Alessandro Pozzi:** Digital Minimal Invasiveness: Biologic Integration & Esthetics; **Dr. Edward P. Allen:** Minimally Invasive Soft Tissue Grafting for Treatment of Deficiencies around Implants; **Dr. Stephen Chu:** Immediate Implant Therapy with Teeth and Pontics in the Esthetic Zone; **Dr. Carlos Aparicio Magallon:** Achieving patient specific therapy through “The Zygoma Anatomy-Guided Approach” (ZAGA) and specific implant design. The Zygomatic Success Code (ZSC); **Dr. Abdelsalam Elaskary:** Implant Related Gingival Recession: Etiology, Classifications and Innovative Treatment Protocol; **Dr. Hom-Lay Wang:** Current Status in Horizontal and Vertical Bone Augmentation; **Dr. John Kois:** Predictable Single Tooth Peri-implant Esthetics: Five Diagnostic Keys.

An ICOI Advanced Credentials presentation followed the symposium. The following doctors received 14 diplomates, 1 Mastership and 44 Fellows:

ICOI at the Greater New York Dental Meeting

The Greater New York Dental Meeting this year hosted over 50,000 attendees for multiple days November 25th – 30th. The GNYDM organized an Implant Expo and the educational material was presented by the ICOI and the AAID, just as last year. We are extremely grateful to Drs. James Doundoulakis and Ian Lerner who again helped us put this program together and will be doing the same next year.

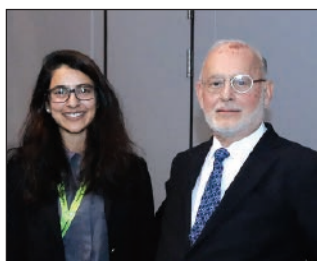

ICOI educators at the GNYDM were:

Dr. Louie Al-Faraje from San Diego, CA, USA, Dr. Nabil Barakat from Beirut, Lebanon, Dr. Jack Hahn from Cincinnati, OH, USA, Dr. Samuel Lee from Buena Park, CA, USA, Dr. Ady Palti from Baden Baden, Germany, Dr. Guido Sarnachiaro from New York, NY, USA, Dr. Michael Sonick from Fairfield, CT, USA, and Dr. Mario Vilardi from Fishkill, NY, USA.

Any income that was generated from the workshops/seminars was given to the GNYDM to use for poster presentation awards. This year the winners were: First Place: **Mr. Avrekh Ariy**; Second Place: **Dr. Selina Somji**; Third Place: **Drs. Eirini Paroutoglou and Stephen Chi**.

1st place Mr. Avrekh Ariy from Columbia University (center), flanked by Dr. Ken Judy (left) and Dr. Jim Doundoulakis (right).

2nd place winner Dr. Selina Somji from NYU (right).

3rd place winner Dr. Eirini Paroutoglou from NYU (center) with Dr. Ken Judy (left) and Dr. Jim Doundoulakis (right).

ICD at the Greater New York Dental Meeting

The International College of Dentists held a special induction ceremony at the GNYDM. ICOI members who received Fellowship (FICD) were, Dr. Ramiro Alfaro Arellano, Dr. Bruce Haber, Dr. Thomas Magnani, Dr. Sang-Choon Cho, Dr. Stuart Froum, Dr. Scott Ganz, Dr. Scott McFarlane, Dr. Avi Schetritt, Dr. Ron Bulard, and Dr. Luis Grisolia.

Additionally, five doctors from Cuba were recognized and received their fellowships. This was especially appropriate since a Cuban dentist was one of two of the original ICD founders years ago. This year Dra. Estela De Los Angeles Gispert Abreu was especially noted. She has served as the President of the Cuban Society of Stomatology since 2007.

ADIA NEWS

Great news!! The ADIA has launched its new website (www.adiaonline.org). This is one of many steps the ADIA has taken over the last few months in fulfilling its mission to provide ADIA members with the most up to date dental implant education. The new website has a clean, bold look and includes a new classified section. This section will allow ADIA and ICOI members to post available positions and for ADIA members looking for new career opportunities to post their bios. The new website will also have a literature review section with links to recent articles of interest to dental implant auxiliaries. The new ADIA website is a true resource for all its members.

Additionally, the ADIA program for future meetings will feature some exciting new changes. The auxiliaries will start the meeting with their doctors in the main auditorium on Thursday afternoon. Thus the entire dental team can start the meeting together and benefit from the main podium speakers. Friday mornings there will be an ADIA breakfast that will kick off a day of world renowned podium speakers. On Saturday, auxiliaries can attend one of four advanced certification courses. Advanced certification courses are available for assistants, hygienists, practice managers and implant coordinators. These full day courses provide education focused on the specific knowledge and skills necessary to become an integral and indispensable part of the dental implant team.

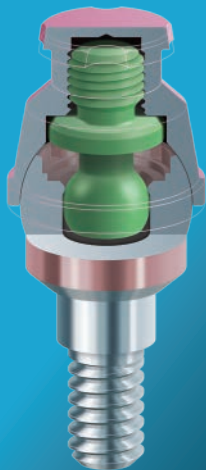

The newly introduced ADIA table clinic presentations will take place alongside the ICOI table clinic and poster presentations. These 8-10 minute presentations will allow auxiliaries to share their clinical knowledge/experiences with their peers and doctors as well as promote the team approach to implant dentistry.

We personally invite you to bring your entire dental team to the next ICOI meeting and let them experience the ADIA program. We promise you that your team will return to the office energized with a wealth of new information.

Dr. Avi Schetritt, ADIA Executive Director

ICOI NEW IMPLANT GLOSSARY

ICOI has created a new glossary of implant dentistry that is digital and can be accessed online by visiting www.icoi.org. This glossary has been created by the efforts of many and is free to all. Not just ICOI members. It is now being translated into several languages. We will greatly insure wide translation by utilizing IDREF connections to engage interested parties, for further translation now that we have gone live. A glossary committee will be created and it will evaluate any corrections or additions that any interested party might suggest. It will therefore be a "living document", but one that is also copyrighted. It would be remiss if we did not thank Drs. Jalbout, Taborian, Ganz, Palti and many others who have made this document come to fruition.

ICOI Around The World

EUROPE

ICOI Further Extends Their European Presence

The ICOI was founded in 1972 and its primary mission has always been to globally educate all implant team members. However, the ICOI has supported research world wide by issuing grants through our Implant Dentistry Research & Education Foundation (IDREF). After 45 years of international activities and delivering implant education in more than 100 Countries, we decided to act on the individual needs of every special geographical region and especially the EMEA (Europe, Middle East, Africa) area.

For the first time in 45 years the ICOI created a multilingual web site for the the most heterogenous Continent on our globe. The languages that are currently translated are Arabic, Chinese, English, Farsi, French, German, Hebrew, Italian, Japanese, Korean, Polish, Portuguese, Russian, Spanish, Thai and Vietnamese.

At www.icoi.org , www.icoieu.org , www.icoiap.org you can find all information regarding ICOI activities worldwide.

This was necessary to adapt to the different needs and problems related to implant dentistry education, and regulations, country by country, to coordinate and guide all these activities. The ICOI nominated Dr. Ady Palti to be the Director of ICOI Europe. He is also our Co-chairman for Advanced Credentialing and Continuing Education programs.

The ICOI will keep all existing relations with local partner societies. However, other doctors interested in becoming ICOI members without belonging to a local society can DIRECTLY join ICOI Europe and their local country Chapter.

The ICOI is also the FDI partner in research and education in the implant field for the next four years. Our first project concerns research of PERIIMPLANTITIS, classification and treatment protocols.

ICOI Europe Activities

ICOI Europe activities will be able to expand implant education at the highest level in each country and support local doctors to achieve credentials in their country.

ICOI Fellow, Master and Diplomate credentials are offered to our EMEA members .The diplomate status has a European title “EXPERT in ORAL IMPLANTOLOGY of ICOI EUROPE.” This is also an ICOI European trademark.

ICOI EUROPE
INTERNATIONAL CONGRESS OF ORAL IMPLANTOLOGISTS

Participants at the ICOI/DGOI Curriculum in Baden Baden, Germany December 2-3, 2016. Last weekend of a successful Implant Curriculum.

The First Europe Meeting

The First Europe Meeting will be held June 8-10, 2017 in Cracow, Poland. We will also host a Consensus Conference on “Standards of Care for the Edentulous Mandible” to describe solutions for this special area that have long term success and predictable results. Hope to see you there. We hope to help our local members creating successful meetings and Study Clubs in their areas.

Advantages for ICOI and “ICOI Europe” Members

We would like our members to become leaders in their individual countries.

We will deliver to each ICOI member every year 60 FREE dental/implant animations for Patient Education (dentalmaster.com).

This will give every member the possibility to explain and demonstrate multiple implant procedures.

Our European members will get “ORALE IMPLANTOLOGIE” as a clinical Journal with case presentations and step by step description of implant procedures in the daily implant practice and of course our Implant Dentistry journal (with its Impact Factor).

We also are delivering Implant Curricula for every level of the entire team.

Basic Curriculum from ICOI educators for future implantologists. 16 days of implant education with hands on and live surgeries in different locations. This basic education will currently be delivered in German/English or other languages upon request.

The next level will be training for Prosthetic Masters, 4 weekends of Digital and Prosthetic Education including TMD and occlusion aspects, for doctors who want to focus on prosthetic restorations and obtain the ICOI Master credential certificate.

The third level of education will be the Advanced Curriculum for future Diplomates/Experts in Oral Implantology.

These Curricula in combination with our local Study Clubs, meetings & symposia will deliver the most complete implant education a doctor and his team needs for a successful implant practice. WE TAKE YOU TO THE TOP!

We will implement Young Implantologists in our programs worldwide so we can support talented speakers in cooperation with different societies or study clubs.

ICOI Europe Leaders and Educators

We are very proud to have a fantastic group of leaders and unique educators in the EMEA region. We can deliver a unique start for you in your implant office.

Our Clinical Educators are most superb in their field.

The ICOI Deutschland and EMEA Curriculum is a unique combination of teachings by well advanced clinicians and researchers in the dental community.

- Prof. Fouad Khoury & team, Olsberg
- Prof. Axel Buman & team, Berlin
- Drs. Elmar Frank & team, Besigheim
- Dr Roland Török & team, Nürnberg
- Dr. Howie Gluckman, South Africa
- Prof. Ady Palti & team, Baden Baden

This is only a partial list of our leaders and educators.

The ICOI will deliver in the future multiple curricula in different areas in the world upon request of local members.

Join us and be a member of the most energetic, dynamic global implant society in the world.

INDIA

Thank You From Dr. Verma, New Delhi

Dear Dr. Scortecchi,

It was wonderful having you over during 10th World Congress for Oral Implantology & AAID Global Conference 2016. It was sheer privilege for us to involve ICOI as partner organization for 10th WCOI meeting. I was delighted to meet you and Dr. Ken Judy during the meeting. I thank you both profusely for the honor granted to me. My gratitude to the entire ICOI leadership for their contribution towards the success of 10th World Congress for Oral Implantology & AAID Global Conference 2016.

I look forward to be working with you in all your future endeavors.

Best regards,

Prof. Mahesh Verma

ICOI also presented Prof. Mahesh Verma with an Honorary Diplome, an extremely rare honor.
