Dr. Jack Hahn: 43 Years of Implant, Surgical and Prosthetic Failures

- Text books authored by C.E. Misch, C. Babbush, J. Hahn, J. Krauser, J. Rosenlicht
- Numerous Articles published in the ICOI Journals and the Journals of the AAID
- Referred articles published in the Journal of Oral & Maxillofacial Implants

Dr. Randolph Resnik: Anatomic Variants and Pathology of the Paranasal Sinuses Which Predispose to Post-Sinus Graft Complications

- Histologic changes in the maxillary sinus membrane after sinus membrane elevation and the simultaneous insertion of dental implants without the use of grafting materials Oral Surgery, Oral Medicine, Oral Pathology, Oral Radiology April 2008, Sung-Han Sul

Dr. Georgios Romanos: Allografts or xenografts in bone augmentations? Biological considerations for the successful clinical practice

- Advanced Immediate Loading. Quintessence Publ., Chicago 2012

Dr. Avi Schetritt: Biological Modifiers for Hard and Soft Tissue Regeneration

- Sinus floor augmentation with simultaneous implant placement using Choukroun’s platelet-rich fibrin as the sole grafting material: a radiologic and histologic study at 6 months. Mazor Z, Horowitz RA, Del Corse M, Prasad HS, Roher MD, Dohan Ehrenfest DM. J Periodontol. 2009 Dec;80(12):2056-64.
- The use of leukocyte and platelet rich fibrin during immediate postextractive implantation and loading for the esthetic replacement of a fractures maxillary central

Dr. Keith Progebin: Zirconia Abutments - Is it the ultimate esthetic implant restoration?

- Microgap between Zirconia abutments and Titanium implants Sebastian Baixe et. al. IJOMI 2010;25:455-480.

Dr. Pablo Galindo Moreno: Bone biology associated to implant placement

Dr. Michael Sonick: Prosthetic Guided Bone Regeneration

Dr. Alvaro Ordonez: Digital Integration in Implant dentistry: CBCT + Intra and Extra Oral Scanning= Great results

- Ganz S: Computer aided design/ computer aided manufacturing applications using CT and cone beam CT scanning technology, Dent Clin of N am 52 (2008), 777-808

Dr. Ady Palti: How to Build a Successful Implant Practice

- Dr. Bryce Tremblay, Business Bootcamp for Dentist Graduates
- Marketing and Communicating with the dental patient Copyright 2006, Thompson Delmar Learning

Dr. John Olsen: Using Botox and Dermal Fillers to Make Your Implant Case Perfect

- Soft Tissue Augmentation 3rd Ed. Jean Carruthers and Alatair Carruthers
- Botulinum Toxin 3rd Ed. Jean Carruthers and Alatair Carruthers
- Orofacial Pain 4th Ed. Reny de Leuw

Dr. Gerard Scortecci: Don't be trapped by dogma: Sharing 40 years of clinical experience and fundamental research

- Scortecci G. Immediate function of cortically anchored disk-design implants without bone augmentation in moderately to severely resorbed completely edentulous maxillae. JOI 1999; 25: 70-79
Dr. Richard Kraut: Predictable Bone Grafting for Implant Restorations

Dr. Aldo Vicari: Esthetic Management in the Anterior Maxilla from Simple to Complex Cases: The Good the Bad and the Ugly.

Dr. Charles Babbush: All-on-Four: Fact, Fiction, Rumors and the Real Truth

- The All-On-Four Immediate Function Treatment Concept with Nobel Active Implants: A Retrospective Study
- Post-Treatment Quantification of Patient Experiences with Full-Arch Implant Treatment Using a Modification of the OHIP-14 Questionnaire
- Patient Related and Financial Outcomes Analysis of Conventional Full-Arch Rehabilitation Versus The All-On-Four Concept: A Cohort Study

Dr. Konstantinos Valavanis: The Marginal Migration Concept: A Surgical-Prosthetic Approach to Enhance the Perimplant Tissues

Dr. Guido Sarnachiaro: Immediate Implant Placement in the Esthetic Zone. Surgical and Prosthetic Considerations: The Dual Protocol Zone.

- Grunder U: Crestal ridge width changes when placing implants at the time of tooth extraction with and without soft tissue augmentation after a healing period of 6 months: report of 24 consecutive cases. Int J Per and Rest Dent 2011; 31:9-17

Dr. Rick Ferguson: Soft Tissue Manipulation in the Esthetic Zone for Long Term Clinical Success

ADIA Winter Implant Symposium
New Orleans, Louisiana January 16-18, 2014- Marriott Hotel on Canal Street
Speakers Scientific References /Citations

• Art Curley states, “Dental Implant related technology has evolved…to the point that the occurrences of complications and failures once considered risks…may not be used as evidence of negligent care for which the practitioner may be held liable.” Froum, Stuart J. Dental Implant Complications: Etiology, Prevention and Treatment, Hoboken, New Jersey; Wiley-Blackwell;2010:6
• Frequently the last remaining teeth in the mouth are the mandibular anterior teeth, especially the mandibular canines and it is a common finding to see an edentulous maxilla opposing mandibular anterior teeth. McGivney, Glen P. Carr. Alan B. McCracken’s Removable Partial Prosthodontics 10th ed. Philadelphia, PA; Mosby-Elsevier, 1999:3.
• Each person who comes in contact with patients should have an understanding of the basic drives involved in motivating patients. Unless the dentist and staff have a basic understanding of these drives, they will become discouraged after numerous attempts fail to motivate patients to appreciate good health and quality dentistry. Finkbeiner, Betty L. Finkbeiner, Charles A. Practice Management for the Dental Team, 7th ed. Philadelphia, PA; Elsevier Health Sciences; 2010:29.
